Description of the companies co-funding the scholarships, pursuant to DM 352/2022

Enterprise: *Aulab SRL*

Aulab is the first Italian Coding Factory dedicated to the world of programming, it has been training Full Stack Developers since 2014 through its so-called "hackademy", a 3-month intensive programme. The Coding Bootcamp Hackademy is just the first step in the training pathway of future Full Stack Developers. Thanks to the Coworking Tech space in the Bari office and the in-house Software House, Aulab's students are able to experience hands-on the skills needed to become web developers, rubbing shoulders with a network of digital professionals and finding many business opportunities. The team of experts oversees each stage of the IT training process, guiding the students in creating high-tech applications and software.

Enterprise: *Biomedical SRL*

Private laboratory for clinical tests, bacteriology, male infertility, genetics (in-service). Biomedical Analisi Cliniche was established in 1981 and has since become much appreciated by the general public in the Caltagirone health district. Continued demand and the growth of users has triggered a company policy aimed at adopting increasingly cutting-edge analytical systems, thanks to the specialisation of staff engaged in constantly monitoring their evolution. Ensuring service quality is a primary commitment of the management and staff, as a result of which approx.. 700 laboratory tests can be performed at the access point. The high professionalism of the staff, guaranteed by in-house and outsourced refresher programmes, ensures the ongoing success of Biomedical Analisi Cliniche for a broad range of tests, including virological markers, tumour markers, autoimmune antibody research, pregnancy tests and generic tests. The access point has been designed and built to offer users high-quality services from reception to admission and sample removal, ensuring a comfortable waiting facility for adults and a dedicated test area for children.

Enterprise: *Certipass Srl*

Certipass S.r.l. is the provider of the international EIPASS digital skills certification programs. CERTIPASS Certifies ICT skills to give everyone the opportunity to access Digital Culture (correct approach to new technologies and internet) by developing I-Competence (skills to know how to use these resources with awareness and critical spirit) indispensable support for the social, professional and economic growth of all citizens of the 21st century. globally.

It operates on the international territory through partnerships with companies, public and private higher education bodies, institutions, universities and schools of all levels
